Please find some explanations:

1. Soybean and Soybean products – Tocopherols: This includes natural mixed tocopherols (E306), natural D-alpha tocopherol, natural D-alpha tocopherol acetate, and natural D-alpha tocopherol succinate

2. Wheat and wheat products: This includes - Durum wheat including semolina (*Triticum durum* Desf.), Club wheat (*T.compactum* Host.), Einkorn (*T. monococcum*), Emmer (*T. turgidum*) and other wheat species (genus *Triticum*) and their products.

3. If the wheat component is exclusively composed of Spelt, Kamut, Triticale or glucose syrup, dextrose, and Maltodextrin derived from wheat, please select these individual components instead of wheat and wheat products. Kamut and Kamut products: Also includes Khorasan or other Oriental wheat species.

4. Walnut and walnut products: This includes English, Persian, Black, Japanese and Californian species

5. For highly refined nut oil and highly refined peanut oil: There are dedicated entries for these components

6. For cereals and nuts used for making alcoholic distillates: There are dedicated entries for these components

7. Milk and milk products – whey protein used for making alcoholic distillates: This also includes whey protein used for making ethyl alcohol of agricultural origin

8. Oats – indicate if the material contains oats.
